Technology Integration • Process Improvement • Service Oriented Architecture • Wireless Data Communication
Middleware • New Product Development & Launch • Client & Partner Relations • Team Building & Leadership

PROFESSIONAL EXPERIENCE

DATALINE, LLC, Norfolk, Virginia April 2008 - Present

\$120M technology solutions provider to Department of Defense (DoD) and other federal customers

Director, Business Development

Tasked with positioning Dataline as a transformational provider of secure distributed computing infrastructures to the DoD, DHS and Intelligence communities through a comprehensive marketing, capture and sales initiative.

SIRIUS COMPUTER SOLUTIONS, San Antonio, Texas • 2007- April 2008

\$800M national provider of computer hardware, software, storage and services.

Director, Federal Systems

Lead the development of the new Federal Services practice consisting of 10 staff members. Control all aspects of business operations, including staffing, budgeting, P&L, business development and marketing. Identify and pursue new business opportunities to drive organizational growth. Present capability briefings to prospective customers, author and review proposal responses in addition to conducting strategic alliance and partnership negotiations.

Financial / Operational Highlights:

- Oversaw a \$2M+ joint IBM / Sirius marketing initiative.
- Cultivated strategic alliances and negotiated subcontracts with multiple government-wide acquisition vehicles.
- Served a key role in closing a \$300K blade technology sale supporting the US Navy's fleet-wide IT upgrade.

CRYPTTEK, INC., Sterling, Virginia • 2006-2007

\$30M provider of network access security appliances, tempest equipment and secure fax machines to the Government.

Vice President, Global Systems

Oversaw sales and business development efforts to capture, execute and manage \$8M+ worth of technical services contracts. Wrote and reviewed proposal and task order responses. Monitored projects to ensure compliance with service level agreements. Maintained full P&L management authority while serving as Senior Business Unit Executive.

Operational / Financial Highlights:

- Played an instrumental role as IBM Alliance Manager.

IBM, White Plains, New York & Bethesda, Maryland • 2000-2006

\$98B global computer technology and consulting services company.

Worldwide Sales Executive, WebSphere Everyplace (2005-2006)

Worldwide Sales Executive, WebSphere Mobile & Conversational Access (1/2005-7/2005)

Sales Consultant, Portal & Pervasive Computer Software (2001-2004)

Executive Consultant & Worldwide Practice Leader, Mobile Wireless Solution (2000-2001)

Directed strategic planning, marketing, sales and business development to drive the sales of IBM products and solutions. Organized internal marketing and product development meetings, managed the sales pipeline, evaluated sales forecasts, delivered customer briefs to senior decision makers and reviewed proposal responses. Led key business transactions and appointed corporate resources in charge of supporting worldwide field sales operations. Supervised a global team of 60 direct sales and 70 technical sales support specialists within a matrix system.

Financial Highlights:

- Succeeded in attaining a \$50M multi-industry global revenue target for Mobile & Wireless solutions.
- Achieved 132% of the portal revenue target after personally generating \$3.76M in 2002.
- Grew the IBM Federal Mobile & Wireless middleware business from \$60K in 2002 to \$1.7M in 2004.
- Negotiated and closed a sale with the Washington DC Metro Area Council of Governments, which resulted in the deployment of the nation's 1st regional first responder wireless coordination network.

Operational Highlights:

- Doubled the number of Federal US Government customers after closing high-dollar transactions with the House of Representatives, Secret Service, Patent & Trade Office, Air Force, Army and Department of the Interior.
- Won the 2002 IBM Pervasive Computing General Manager Award.

JP MORGAN CHASE, New York, New York • 1999-2000

\$65B global banking and financial services company.

Vice President, Global Market Operations & Technologies

Managed all major IT initiatives to maintain the banking institution's currency and securities trading infrastructure in support of their global market operations. Oversaw Y2K contingency planning, financial security trading floor preparation and global electronic data file remediation. Supervised a 13-person staff and a 50-person global team located in New York, London, Hong Kong and Singapore.

Operational Highlights:

- Led a Y2K transition project that impacted virtually every corporate system without sustaining outages and failures.
- Ensured full compliance with Federal Y2K certification guidelines after successfully identifying, remediating and testing 50M+ critical files and records; completed project ahead of schedule.
- Earned a Chase Service Star Award for consistently enhancing operational integrity.

SENTEL CORPORATION, Alexandria, Virginia • 1996-1999

\$35M professional services company specializing in engineering, scientific and CAD/CAM software, construction and design.

Chief Technology Officer

Operated as the principal technology leader charged with simultaneously maintaining and optimizing the internal corporate IT infrastructure as well as managing commercial business initiatives. Collaborated with lawyers on the management of intellectual property and led the commercialization of Department of Defense (DoD) related technologies. Served as the Program Manager and Lead Consultant for key NASA programs. Supervised a team of 5 members. Exercised full P&L management authority over all IT operations.

Financial / Operational Highlights:

- Expanded business operations into the commercial sector by introducing wireless data communication solutions.
- Closed multi-million dollar deals after successfully commercializing and selling wireless workflow and process management technology to Boeing, CSC, United Space Alliance and Lockheed Martin.
- Saved Framatone Technologies \$5M+ in annual overhead costs by implementing a paperless procedure system.
- Created NASA's 1st paperless spacecraft launch procedure system, which expedited the process from 45 to 2 days.

TERA RESEARCH, INC., Vienna, Virginia • 1994-1996

\$12M provider of professional engineering services, including space system development and advanced technical analysis.

Director, National Capital Area Operations

Handpicked to start up and manage a new business operation in the Washington DC area. Developed strategic business plans as well as operating, sales and service programs leveraging Internet search technology expertise. Established business processes and procedures. Built and led a 20-person customer support team. Maintained full P&L management authority over all operations.

Financial / Operational Highlights:

- Built and grew the startup business to generate \$1M+ within the 1st year of operations.
- Secured \$500K+ in Internet related government contracts after devising targeted marketing programs.
- Led the design and implementation of classified and unclassified websites for the National Reconnaissance Office and the Defense Intelligence Agency (MASINT Office).
