Learn From the Industry's Top Speakers & Exhibitors at New York's Best-Attended SOA & Virtualization Technology Event

*SOA & Virtualization – The Two keystones of Today's
Service-Oriented Dynamic Enterprise Computing Model*

SOA World Conference & Expo

Make sure your company or organization is on course to achieve full-blown service orientation by attending the 13th International SOA World Conference & Expo, the longest-running and most intense regular conference devoted to SOA, already attended by over 50,000 IT professionals.

- Learn all there is to know about business architecture, SOA, and software-oriented management.
- Get up to speed on enterprise mash-ups, composite applications and software as a service (SaaS)
- Explore how to use standard SOA technologies to communicate between your legacy apps and your sleek new service-oriented applications.

Virtualization Conference & Expo

Take your virtualization strategy to the next level at the 3rd International Virtualization Conference & Expo, the fastest-growing event covering every aspect of the deep penetration of virtualization into the enterprise.

- Find out how other businesses are using virtualization.
- Catch up with the whole set of new management challenges that you need to be aware of.
- Discover the cost savings obtainable through server consolidation, reduced administrative costs, and greater flexibility.
- Learn how virtualization can even benefit deeply embedded applications such as cell phones, networking equipment, and point of sales terminals.
